PROFESSIONAL SUMMARY

Software Developer with hands-on expertise in the MERN stack, specializing in building high-throughput RESTful APIs, responsive React interfaces, and scalable database architectures. Experienced in implementing JWT authentication, CI/CD deployment pipelines, and database optimization strategies across production environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, WebSockets, JWT Authentication, Microservices Architecture

Databases: MongoDB, MySQL, Redis, Query Optimization

DevOps & Tools: Git, GitHub, Docker, CI/CD Pipelines, Postman, Vercel, Render

PROFESSIONAL EXPERIENCE

Full Stack Developer – Nextute

April 2025 – March 2026

- Reduced average REST API latency by 30% by refactoring MongoDB query pipelines and creating strategic database indexes under an MVC structure.
- Engineered secure backend services utilizing JWT authentication and Role-Based Access Control (RBAC), securing application data and eliminating unauthorized access incidents post-deployment.
- Accelerated sprint velocity by 20% through active debugging of production defects and maintaining automated CI/CD deployment pipelines to Render.
- Enhanced application uptime by implementing structured error handling and logging middleware across critical core API routes.

PROJECTS

BunAi – AI-Powered Portfolio Generator

[GitHub](#)

- Streamlined user onboarding by 70% by designing a secure OAuth 2.0 flow integrated with a Cloudinary and Multer asset processing pipeline.
- Boosted Lighthouse performance scores by 35% through payload optimization, dynamic imports, and MongoDB aggregation tuning.

TableServe – Restaurant Management System

[GitHub](#)

- Developed a QR-code ordering architecture for 50+ restaurant tables, automating table management and reducing staff intervention.
- Reduced payment processing time by 40% by integrating Razorpay API with real-time WebSockets for instant order updates.

EDUCATION

B.Tech in Computer Science and Engineering (AIML)

August 2023 – June 2026

Ajay Kumar Garg Engineering College, Ghaziabad – Aggregate: 75.25%

Diploma in Information Technology

September 2021 – September 2023

Government Polytechnic, Mirzapur – Aggregate: 80.39%

CERTIFICATIONS

- Full Stack Web Development Certification – Indradhanush Infotech
- Python Programming Certification – Infosys Springboard
